

Immunization Public Advocacy Group

A workgroup of the Hawaii Immunization Coalition

The Hawaii Immunization Coalition (HIC) **Public Advocacy Group** is comprised of individuals who believe **vaccines are safe and effective** in protecting ourselves, our children, our families, and our communities from diseases including flu, measles, pertussis (whooping cough), hepatitis B, and chickenpox. Join Immunization Advocate, Thaddeus Pham, and the rest of us in our immunization education and advocacy activities for a **healthier Hawaii**.

For more information, visit immunizehawaii.org.

My uncle was born in Vietnam, where he likely acquired hepatitis B at birth. Later, he ended up passing away in his late 40's due to related complications with his liver. It saddened me to think that he and his family could have been spared this tragedy if he had had access to the hepatitis B vaccine. I

*feel strongly that declining or dismissing vaccines is a luxury that most people in the world do not have. **I fight for increased immunizations because I believe it is a matter of health equity and also social justice.***

Thaddeus Pham, Immunization Advocate

The Hawaii Immunization Coalition is a 501(c)3 statewide community-based organization working to ensure all of Hawaii's families are appropriately vaccinated against vaccine-preventable diseases.

I want to join the HIC Immunization Public Advocacy group. Sign me up!
